Yellow Pine Lumber

Washington, Aug. 17.—The interest being taken by practical lumber men in the conservation of the forests was illus-trated at the trated at the semi-annual meeting of the Yellow Pine Manufacturers' Asso cistion which was recently held in Chicago. The report of the committee on the conservation of the yellow pine forests received much attention and was adopted unsulmously. Among the chief recommendations made by the committee in its report was for the cutting by lumber men of their timber by two operations with an interval of from fifteen to twenty years, the rips timber being removed during the first cutting and to leave from 2,500 to 3 000 feet of standing timber on each acre. It was shown by such a method of lumbering that a decided advantage would accrue to the lumber men through the increased growth and consequent gain in tim'er which would be had between the first and second cuttings. The association also adopted the recommendation of the committee providing for the appointment of a committee with power to act and to expend funds to cooperate with the forest service on matters of education, forest fires and taxation.

HEAT AND STORMS.

As the result of a fierce wind and rain storm which passed over Charleston, S. C, yesterday, all telegraph wires leading out of the city are down, and the only means of communication with the outside world is by long-distance telephone. There has been no loss of life. The report that the city has been

visited by an earthquake is incorrect.

A high windstorm, approaching hurricane in violence, prevailed yesterday over the south Atlantic cosst east of Augusts, Ga. All telegraphic commu-nication was been destroyed, but there ere no signs of any carthquake disturbauces.

A severe electrical storm passed over Trion, in Chatoga county, Ga, yester-day. Two men are dead and five injured, one seriously, from a stroke of light-ulog. Lightning also damaged the depot of the Central Georgia Railroad. S vere warm weather throughout the southwest gave way to a limited exten-
